Git, GitHub, Netlify, Vercel, OpenCode, Cursor, Lovable, v0, Replit, Base44, Linux

AI Workflow

Claude, ChatGPT, Antigravity

LANGUAGES

English	Professional
Hindi	Native
Gujarati	Native

Summary

BCA student at RK University with a strong foundation in C programming and growing expertise in modern web development. I specialize in crafting clean, responsive, and interactive web experiences using HTML, CSS, and JavaScript. Currently exploring AI-driven full-stack development, blending traditional programming with modern AI tools to turn ideas into functional, beautiful digital products.

Projects

Rasoi

[github ↗](#)

React · Vite · Tailwind · Lovable

Restaurant app with QR ordering, role-based dashboards (admin / staff / customer), and GST billing.

CodeCompass

[live ↗](#)

React · TypeScript · Vite · Tailwind · Bolt.new

AI-powered dev hub aggregating roadmaps, GitHub repos, and curated YouTube channels for tech students.

Pulse

[github ↗](#)

React · Socket.IO · JWT

Real-time messaging with live chat, emoji reactions, thread replies, and read receipts.

Code-EZ

[github ↗](#)

JavaScript · HTML · CSS · AI Integration

AI-powered code explanation platform for C, C++, and JavaScript — helps students prep for exams with instant explanations.

SwiftShare Local

[github ↗](#)

Web · Local Network · File Transfer

Cross-platform file transfer for iOS, Android, and desktop over local network — no cloud needed.

Library Management System

[github ↗](#)

C · Data Structures · File I/O

Menu-driven C project showcasing linked lists and persistent file handling.

Education

RK University, Rajkot

2025 — 2028

Bachelor of Computer Applications (BCA) — Semester 3
